INSULATED DOCK SYSTEMS BY JOHNSON BUILDING SYSTEMS

UNIVERSAL 400/500/600/800 INSULATED WALL AND ROOF PANEL SYSTEMS

The Universal 4" (100mm) 5" (125mm) 6" (150mm) 8" (200mm) panels are excellent for exterior and interior wall partition and ceiling system, and most applicable for exterior use with proper caulking and trim. Panel faces are shallow 3/4" wide profile 4" o.c., with a standard stucco embossed white finish, formed of .019" AZ50 Galvalume conforming to ASTM A653/792, with Standard Solid Core of EPS - Expanded Polystyrene insulation treated to resist termites and carpenter ants with a pest control agent (Borate) that does not degrade with time. Cut to actual lengths as required in continuous line factory process, chemically welded to 1 lb. density EPS insulated core.

Prod.No.	46" (Nom.) Wide Panels are manufactured to size with 1# Density EPS Insulated Solid Core.	Max Height	Thick-ness	Net / Sq.Ft.	R-Value
400GWB	.019" Galvalume White painted stucco embossed Both sides	24	4"	\$5.00	R-18
500GWB	.019" Galvalume White painted stucco embossed Both sides	30	5"	\$5.25	R-22
600GWB	.019" Galvalume White painted stucco embossed Both sides	36	6"	\$5.50	R-27
800GWB	.019" Galvalume White painted stucco embossed Both sides	40	8"	\$6.00	R-35
