CR-400/500 HI-GLOSS SMOOTH WHITE PANELS

For Cold Storage and Clean Room Applications

Thermal-Lock Tongue and Groove provide easy installation of wall, ceiling, and floor panels. The design allows for relocation of T&G panels.

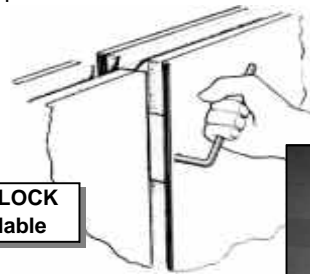

FULL INSULATION: All ceiling, and wall panels are constructed of Solid Core EPS 1# density foam insulation with both panel faces lightly grooved with 3/4" wide shadow line 4" o.c. white (SMP) painted stucco. Smooth (optional) high gloss finish over 26 Ga. galvanized steel. The insulated foam panel is completely encapsulated and fabricated without the use of wood. Modular construction allows for ease of installation, lower shipping cost and the ability to relocate the panels with minimum effort.

ENGINEERED BUILDING PACKAGES for interior and exterior coolers, freezers and non refrigerated commercial buildings.

Available with Solid Core EPS (Panel Weight 2.25#/sq.ft.).

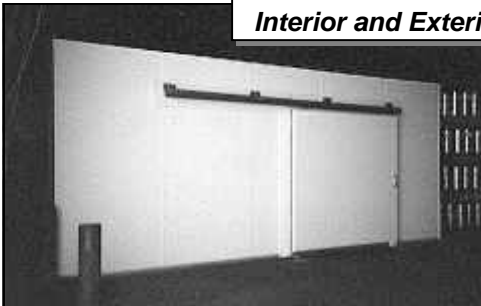

CAM-LOCK Available

Electrical Chase Available
